Lightroom is like the workshop for your photography hobby: spread your photos out on the table, organize them into albums, apply star ratings for favorites or flag them for acceptance/rejection, and apply light touches and corrections at scale.. Whether you're a wedding photographer or an Instagram power user, anyone that cares to manage and brush up hundreds of photos ought to give Adobe Lightroom a whirl.. A relative newcomer to the Adobe suite of products, Lightroom focuses on the breadth part of the photo manipulation equation where the venerable Photoshop has eyes on depth.. It does so with ease and Lightroom always retains the original photo
